	cohort-style fellowship program for school district leaders who are committed to addressing persistent disparities in their systems and ensuring that race and class are no longer the most reliable predictors of student success. Each RELN cohort is comprised of up to twelve (12) executive leaders (i.e., Superintendents, Deputy Superintendents, Chief Academic Officers, etc.) from school systems across the South. Over the course of their fellowship experience, RELN fellows attend five (5) two-and-a-half-day network convening's focused on the essential levers for equity-centered leadership and system transformation. In between network convening's, the fellows also receive customized coaching and webinars to support the identification of a context-specific equity challenge. Finally, fellows receive grant support and other technical assistance to implement an action plan addressing their unique equity challenge during a six-month in-district work period. The RELN leadership development model follows a double helix approach incorporating two distinct, but intrinsically linked, strands of learning, engaging, and testing over the course of the 18-month fellowship. Fellows sharpen their individual racial equity lens and receive tools to enhance their capacity for influencing education policy and practice. Because this individual development is insufficient to create sustainable change within systems, fellows simultaneously identify specific policy or practice challenges to address within their districts, receive resources for engaging with others, and observe model districts making progress towards racial equity. Fellowship Outcomes As members of the Racial Equity Leadership Network, fellows (ideally) will: 1) Deepen awareness and understanding of the historical and contextual drivers of racial inequity in schools and make connections to present-day education policies and practices that perpetuate racial disparities in student opportunity and outcomes. 2) Challenge to examine their own attitude, beliefs, and assumptions
